ABHIHAAS SRIMANTULA

CSE STUDENT

SRM UNIVERSITY, AMARAVATHI, ANDHRA PRADESH

About

Hello, I am a computer science engineer currently pursuing my B–Tech at SRM University, AP. My primary ambition is to establish myself as a proficient software engineer. I am deeply committed to achieving my objectives, am willing to learn, and harbor a profound enthusiasm for collaborative teamwork.

In addition to my technical skills, I actively participate in various coding competitions and hackathons, which have honed my problem-solving abilities and allowed me to stay updated with the latest industry trends. My coursework has provided me with a solid foundation in programming languages such as Python, Java, and C++, as well as experience with web development frameworks and database management systems.

Outside of academics, I enjoy engaging in tech communities and contributing to open-source projects. These experiences have not only expanded my knowledge but also connected me with like-minded individuals who share my passion for technology. I believe that continuous learning and adapting to new challenges are crucial in the ever-evolving field of computer science.

Looking forward, I aspire to work in an environment that fosters innovation and encourages growth. I am eager to bring my technical expertise, collaborative spirit, and relentless drive to a dynamic team where I can contribute meaningfully and grow both personally and professionally.

Work Experience

Internship at NALCO

in 2024

National Aluminium Company Ltd. offers internships to B-Tech students, and I was fortunate to be selected as one of the participants in this program. This internship provided me with invaluable insights into the daily routine of a public sector employee, instilling in me a strong work ethic and a sense of dedication. Furthermore, the internship cultivated a spirit of collaboration and camaraderie as I collaborated with fellow interns and employees on challenging projects. Through our collective efforts, we celebrated achievements and learned from our shared setbacks. The practical experience I acquired proved pivotal in bridging the gap between theoretical learning and real-world application.Beyond technical skills, this experience sharpened my problem-solving capabilities and underscored the significance of adaptability in a dynamic professional setting. It reinforced my enthusiasm for engineering and reaffirmed my career objectives. I am appreciative of the opportunity to both contribute to and learn from such a prestigious organization.

Crowd-Funding Intern at an NGO

in 2024

During my internship as a crowdfunding intern at Muskurahat Foundation, I had the chance to dive into the dynamic world of nonprofit fundraising. My primary responsibility was to design and implement crowdfunding campaigns aimed at raising funds for various community projects.One memorable project was a campaign to build a community library. I conducted extensive research to identify the most effective platforms and target demographics. Engaging with local influencers and leveraging social media played a crucial role in spreading the word. I also coordinated with volunteers to organize fundraising events and reach out to corporate sponsors for matching donations.The highlight was witnessing the community's response. Contributions poured in, surpassing our initial goal, and I saw firsthand the impact of collective effort. The experience not only honed my skills in digital marketing and project management but also instilled a deep sense of fulfillment knowing that our work was making a tangible difference in people's lives.

Education

Senior Secondary Education

Sainik School Korukonda   81.4%   2019-2022

Bachelor in Technology - Computer Science   (Full-Time)

SRM University Amaravathi   7/10 GPA   2022-Present

Bachelor of Science - Computer Science   (Part-Time)

SRM University Amaravathi   7/10 GPA   2022-Present

Skills

C / C++
HTML
CSS
Java
Java Script
PHP
MySQL
Python

Certifications

Core Java Certification   2024
DataPro Institutions Gajuwaka

Projects

- Bank Management System
- MP3 Player
- Multiple Website Clones (Amazon, Netflix, Geeks For Geeks)
- E-Learning Website
